Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

ISO draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). ISO takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, ISO had not received notice of (a) patent(s) which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at www.iso.org/patents. ISO shall not be held responsible for identifying any or all such patent rights.

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 304, *Healthcare organization management*.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.

Introduction

0.1 General

Healthcare systems and organizations of all sizes and structures embrace a culture of quality and continual improvement with the objective of providing timely, safe, effective, efficient, equitable and people-centred care. Given the current and future challenges in healthcare, more than ever it is vital to improve service user experience, quality of care, and provide sustainable solutions.

Healthcare organizations around the world have been facing significant threats such as decreasing financial resources, workforce shortages, increase in the number of people needing care as a result of ageing populations, increasing rates of chronic disease, lack of shared data for decision making, scarcity or inadequacy of medical equipment and medications, and an absence of clear healthcare system governance. Many countries have embarked on universal health coverage, while others struggle with rising healthcare costs. To compound this, a global pandemic has highlighted the importance of virtual healthcare, new technologies, and the need to create and adapt approaches to healthcare management and delivery. These health and organizational challenges require bold and innovative steps to improve healthcare quality around the world.

This document provides requirements for management systems for quality in healthcare organizations. As such, its target audience is broad, including any healthcare system, organization, or entity that aims to increase the quality of its healthcare delivery and care outcomes. This includes ministries of health, public and private healthcare systems, hospitals, clinics, non-governmental organizations and agencies that provide healthcare services, and more.

This document conforms to ISO's requirements for management system standards. These requirements include a harmonized structure, identical core text, and common terms with core definitions, designed to benefit users implementing multiple ISO management system standards.

This document contains the requirements used to assess conformity. An organization that wishes to demonstrate conformity with this document can do so by:

— making a self-determination and self-declaration;

— seeking confirmation of its conformity by parties having an interest in the healthcare organization, such as service users;

— seeking confirmation of its self-declaration by a party external to the organization; or

— seeking certification/registration of its management system for quality in the healthcare organization by an external organization.

In this document, the following verbal forms are used:

— "shall" indicates a requirement;

— "should" indicates a recommendation;

— "may" indicates a permission;

— "can" indicates a possibility or a capability.

Information marked as "NOTE" is intended to assist the understanding or use of this document

0.2 Aim of a management system for quality in healthcare organizations

The aims of a management system for quality in healthcare organizations include the following:

— create a culture of quality starting with strong top management;

— embrace a healthcare system based on people-centred care, respect, compassion, co-production, equity and dignity;

前言

ISO（国际标准化组织）是由各国家标准化机构（ISO 成员机构）组成的世界性联合会。制定国际标准的工作通常通过 ISO 各技术委员会进行。凡对某个已设立技术委员会的专业领域感兴趣的成员机构，均有权参加该委员会。与 ISO 保持联络的各国际组织（官方的和非官方的）也参与此项工作。ISO 在电工技术标准化的所有事项上与国际电工委员会（IEC）密切合作。

用于制定本文件以及供其进一步维护的程序在《ISO/IEC 导则第 1 部分》中予以说明。特别应当注意，不同类型 ISO 文件所需的批准准则各不相同。本文件是按照《ISO/IEC 导则第 2 部分》的编辑规则起草的（见 www.iso.org/directives）。

ISO 提请注意，本文件的实施可能涉及使用一项或多项专利。ISO 不对所声称的任何此类专利权的证据、有效性和适用范围表明立场。截至本文件发布之日，ISO 尚未收到实施本文件可能需要使用某项或多项专利的通知。但提请实施者注意，这可能不是最新信息，最新信息可从 www.iso.org/patents 上的专利数据库获得。对于识别其中任何或全部此类专利权，ISO 不承担责任。

本文件中使用的任何商号均为便于使用者而提供的信息，并不构成对其的认可。

关于标准的自愿性质、与合格评定有关的 ISO 特定术语和表述的含义，以及有关 ISO 遵守世界贸易组织（WTO）《技术性贸易壁垒（TBT）协定》原则的信息，见 www.iso.org/iso/foreword.html。

本文件由 ISO/TC 304 医疗保健组织管理技术委员会制定。

对本文件的任何反馈或疑问均应变送使用者的国家标准化机构。这些机构的完整名录可在 www.iso.org/members.html 上查到。
